RP BARRICADE INC.

Since 1986 when RP Barricade Inc. began with only a few cones and barricades, we have been committed to providing safe working areas for construction sites, roadwork crews, public events, & private functions.

Whether you require a cone to protect an area where you are landscaping or you need a lane closed on a freeway, RP Barricade Inc. can provide the traffic control that will keep work sites, crews, motorists, & pedestrians safe. RP Barricade Inc. prides itself on being able to assist in all aspects of our customers' projects.

When a customer needs safety precautions for a site, RP Barricade Inc. can advise you as to which traffic control devices are best for your particular situation. According to CalTrans, or WATCH manual specifications, we can devise a traffic control plan to suit your needs.

RP Barricade Inc. employees can also deliver, set-up, and pick up all products. If the job requires, we can monitor the jobsite and provide flaggers throughout the duration of the work.

The employees at RP Barricade Inc. are trained in accordance to ATSSA standards. Our products in the rental inventory meet current CalTrans & Federal MUTCD standards.

While RP Barricade Inc. continues to grow, our number one priority is to provide our customers with the equipment & tools they need to have a safe working environment.

Let us help you keep your crew, site, and the travelling public safe today.

RP Barricade Inc. has been providing high quality traffic control services since 1986.

We Provide:

Quality Products for sale or rental

Traffic Control Plans

On time Delivery and Pick-up

Flagging by ATSSA trained personnel

- Our Services Include:
-  Delivery
 -  Pick Up
 -  Flagging
 -  Maintaining Job Sites
 -  Traffic Control Plans

RP Barricade Inc. employees are professionally trained to set up lane closures on freeways and on surface streets. Our Traffic Control trucks are designed for worker protection.

Professional traffic control is always designed with safety first.

Our staff can quickly load a truck with equipment & be ready for an on-time delivery.

Lane closures help shift traffic away from the construction area to better protect the workers, and the drivers.

We deliver and pick up in:

Ventura County
Santa Barbara County
Los Angeles County

Traffic Control Plans

In order to move traffic through work zones, events, or around an incident, it is imperative that you have an effective traffic control plan. At R P Barricade Inc., we will draw up a traffic control plan according to your specific needs. Before we begin drawing the plan, we will come out and determine what kind of safety equipment and procedures are essential for your project.

R P Barricade Inc. will include in their plan:

Traffic signs, flaggers, road access, length of tapers, as well as all suggested channelizing devices.

Message boards help explain traffic changes & delays to the motoring public.

We follow your agencies guidelines for our traffic control plans. Let us know if you want WATCH Caltrans standard plans, Caltrans standard plans, Caltrans MUTCD, or Federal MUTCD plans.

In the case of a natural disaster, or a line break, R P Barricade Inc. can also install temporary traffic control that will enable public agency activities, while providing for the safety of the public and crews.

Properly placed channelizing devices and arrowboards are important in providing drivers with a clearly defined travel path.

Figure 6C-2 (CA). Types of Tapers and Buffer Spaces

Cones

Standard cones available in 18" and 28", weighing 3lbs, and 7lbs respectively.

18": CNS-18-A
28" 7lbs: CNS-28-07E
28" 10lbs: CNS-28-10A

Sleeved cones also available in 18" and 28". The 28" cone has a 6", and a 4" sleeve. 18" cone has 6" sleeve only.

18": CNS-18-C
28" 7lbs: CNS-28-07C
28" 10lbs: CNS-28-10C

We also stock and supply a range of different cone signs.

CHANGEABLE MESSAGE BOARDS

Full Size Message Board

- Self contained onboard computer, no laptop required.
- Designed to withstand windgusts up to 98 miles an hour with optional outriggers.
- Under 3,000 lbs. towed by most trucks.
- Solar assisted signs are environmentally friendly and quiet.

CMS-TRL-WSL

Mini Matrix Message Board

CMS-TRL-WSS

Solar Traffic Director

ABS-SLR-LSAC

- 30% smaller than Full Size Message board.
- Operates from 12 volt DC power.

• Environmentally safe operation, easy to operate and maintain.

• Removable towbar with standard 2" ball coupler, which provides for greater theft protection and more economical shipping.

Roll-up Signs

Materials Available

Signs Available

Roll-up signs are available as all standard Caltrans signs (see back of brochure for signs available).

Flags

Flags are available separately in either Mesh or Vinyl.

Mesh: FLS-FLG-MSH
Vinyl: FLS-FLG-VINL

Overlays

Velcro Attachment
MCSH020-0A48

Sign Stands

Sign stands can be supplied with a solid post (left), or a spring loaded flexible post, for extra stability in windy conditions (bottom right).
